Shikshala

Brings you online

Online Education Technology Platform

"Designed by Freepik"

Many institutions were helpless in the pandemic, in spite of having ERPs and LMS...

- Institutes websites are mostly static
- Admissions and Fees collection are almost offline
- Course & Content management is too complex
- Live Classes are conducted using by third party video conferencing apps
- Content and Data Security is always a concern
- Conducting and Evaluating exams, Assignments are still a task
- Several Systems(LMS, Exam, Admissions etc) with no interoperability

Designed by Freepik

No need of any other app for your learning management tasks,
now embrace right technology to enable yourself

Why Shikshala ?

Shikshala is what you need, a technology platform that drives your Institution A to Z...

Unified Institute Portal
